

VINEET DWIVEDI

Frontend Developer | Rewa, Madhya Pradesh
+91 8349877758 | vineetdwivedi409@gmail.com | github.com/vyukxce

PROFESSIONAL SUMMARY

Results-driven frontend developer and B.Tech Computer Science student with proven expertise in building clean, responsive, and user-centric web interfaces. Skilled in HTML5, CSS3, JavaScript (ES6+), and React fundamentals with strong problem-solving capabilities and meticulous attention to detail. Experienced in component-based architecture, DOM manipulation, and implementing modern UI patterns. Seeking a frontend development internship to leverage technical expertise on production-grade projects while collaborating with experienced development teams.

TECHNICAL SKILLS

Languages & Frontend

HTML5 · CSS3 · JavaScript (ES6+) · React · Responsive Design

Development Tools & Platforms

Git · GitHub · VS Code · Netlify · Chrome DevTools

Core Competencies

Responsive Web Design · Component Architecture · DOM Manipulation · UI Implementation · Problem-Solving · Code Clarity & Maintainability

PROJECTS & PORTFOLIO

Cinematic UI — Visual Storytelling Interface

Sophisticated scroll-based UI concept featuring smooth section transitions, timeline-style layout, and cinematic visual hierarchy. Built to demonstrate mastery of modern design patterns, scroll-based interactions, and premium dark aesthetic. Showcases strong understanding of user flow and visual communication through code.

Live Demo: <https://cinematic-ui-timeline.netlify.app/>

Daily Planner Dashboard — Productivity Application

Notion-inspired productivity dashboard with intuitive task management system and clean, distraction-free layout for day-to-day organization. Engineered with vanilla JavaScript to strengthen DOM manipulation, state handling, and core web fundamentals without relying on heavy frameworks. Demonstrates ability to build functional, user-friendly applications from the ground up.

Live Demo: <https://daily-planner-notion.netlify.app/>

Personal Portfolio Website (In Progress)

Minimal, dark-themed portfolio designed to showcase technical capabilities, projects, and

professional achievements. Built with emphasis on clarity, typography, responsive performance, and excellent user experience across all devices and screen sizes.

EDUCATION

Bachelor of Technology in Computer Science & Engineering

Jawaharlal Nehru College of Technology, Rewa

Expected Graduation: May 2026

Professional Development

Currently pursuing comprehensive Web Development course from Sheryians Coding School, focusing on modern frontend technologies and industry best practices.

CORE STRENGTHS

Technical: Problem-Solving · Self-Directed Learning · Code Quality · Performance Optimization

Professional: Attention to Detail · Communication · Time Management · Consistency · Reliability
